Data Flow Diagrams:

This Data Flow Diagram represents the AI Enhanced Security Dashboard. It collects data from various sources, and then uses various algorithms to convert it to a simple depiction for the security analysts.

User Stories

Use the below template to list all the user stories for the product.

| User Type | Functional Requirement (Epic) | User Story Number | User Story / Task | Acceptance criteria | Priority | Release |
|---------------------|-------------------------------------|----------------------|------------------------------------------------------------------------|----------------------------------------------------------------|----------|----------|
| Security Analyst | Registration | USN-1 | The registration is done by the employer. | I can access my account I dashboard | High | Sprint-1 |
| | | USN-2 | I will receive an E-mail with my default login credentials. | I can use the credentials to login | High | Sprint-1 |
| | Login | USN-3 | As a user, I can log into the application by entering email & password | | High | Sprint-1 |
| | Dashboard | USN-4 | I am able to see all the AI analyzed logs on the dashboard | Custom views are enabled and information is constantly updated | High | Sprint-2 |
| | Data | USN-5 | I am able to view all the the standard logs when required | Unfiltered log access is available to the user. | High | Sprint-1 |
| Administrator | Personnel | USN-6 | I am able to register new users to the platform | Privileges to add new users must be provided to the admins | High | Sprint-1 |
| | | USN-7 | I am able to monitor and manage the users | User behavior must be made available to the admin | High | Sprint-2 |
